

# PIG ALLROUND

ART.NR. 01007

Pig Allround has been developed as a universal feed for pigs that are used for breeding, free-range, hobby, and as well as for traditional meat production.

For breeding animals, it contains extra nutrients that support fertility and milk yield. Because of this, Pig Allround contains, among other things, a high dosage of high-quality proteins, which makes it ideal for use in meat production.

A healthy composition with cereals supports a good intake of Pig Allround. In addition, vegetable oils with a high content of linoleic acid and omega-3 fatty acids have been added to support good skin/hair function and other bodily processes.

## Nutritional value per kg:

|               |        |             |       |
|---------------|--------|-------------|-------|
| Crude protein | 14.5 % | Crude ash   | 6.1 % |
| Crude fat     | 4.0 %  | Calcium     | 0.8 % |
| Crude fibre   | 5.3 %  | Phosphorous | 0.5 % |

## Additional per kg:

|           |          |                  |         |
|-----------|----------|------------------|---------|
| Vit. A    | 6,500 IE | Vit. B12         | 23 mcg  |
| Vit. D3   | 750 IE   | Choline Chloride | 350 mg  |
| Vit. Hy-D | 25 mcg   | Pantothenic acid | 12 mg   |
| Vit. E    | 80 IE    | Niacin           | 20 mg   |
| Vit. K3   | 1.5 mg   | Folic Acid       | 4 mg    |
| Vit. B1   | 1.0 mg   | Biotin           | 500 mcg |
| Vit. B2   | 3.5 mg   | Copper           | 15 mg   |
| Vit. B6   | 1.0 mg   |                  |         |

**4 mm diameter pellets**

**Contains easily digestible raw materials** that support fertility and healthy development of the body

**Is generously vitaminized with extra protein** to support growth and milk yield

Contains Hydroxy-D to support **optimal fertility** and bone formation

**Many cereals** and tasty vegetable oils ensure a good feed intake

**Roughly ground** which has a positive effect on the activity and health of the gastrointestinal tract

**Packaging: 25 kg/bag;**  
excellent price-quality ratio

## FEEDING RECOMMENDATION:

Due to the ingenious composition, Pig Allround can be supplied as the sole feed, but it can also be combined with other feed materials.

Fresh water should always be available for drinking.  
See also the instructions on the label of the bag.

## General guide to feeding quantities:

- As maintenance food: the feeding amount per day should be approx. 1% of the body weight of the pig.
- For very productive animals: the amount of feed can be doubled. If you add other feed materials, the amount of Pig Allround should accordingly be reduced.
